"Be the change that you want to see in the world."

Summary

I am a front-end web developer with 4+ years of experience designing and building responsive, scalable, and high-performance web and mobile applications. I specialize in React.js, Angular, Next.js, TypeScript, and TailwindCSS, with enterprise experience on projects like Aditya Birla Capital Limited (ABCL) and startups like BeWeddy.

I focus on converting design mockups into dynamic, user-friendly interfaces, optimizing page performance (reducing load times up to 80%), implementing analytics for actionable insights, and collaborating effectively with designers, back-end engineers, and stakeholders.

Currently, I am expanding my skills toward full-stack development while maintaining a strong emphasis on frontend excellence, performance optimization, and modern UI/UX practices.

Work Experience

Vertis Digital   *Remote, Singapore*
FRONTEND WEB DEVELOPER   *Aug. 2023 - Oct. 2024*

- Built and optimized React.js and Angular UIs for enterprise and startup projects.
- Developed dynamic components from design mockups using React, Angular, and TailwindCSS.
- Implemented Google Tag Analytics and performance monitoring for ABCL projects.
- Assisted with Sitecore Headless Delivery and provided basic content management support.
- Enhanced UX and accessibility while ensuring cross-browser and mobile responsiveness.

BeWeddy   *Remote, Salt Lake City, USA*
FRONTEND DEVELOPER & PROJECT MANAGER   *Jul. 2021 - Aug. 2023*

- Led frontend development for a large-scale wedding management platform using Next.js, React Query, TailwindCSS, and TypeScript within an NX Monorepo.
- Architected scalable and maintainable UI components while ensuring optimal performance.
- Managed a small development team: hiring, task delegation, and client meetings.
- Integrated payment systems, dynamic dashboards, and reporting features.

Micple Inc   *Onsite, Dhaka, Bangladesh*
MOBILE APPLICATION DEVELOPER   *Mar. 2021 - Jun. 2021*

- Developed Android and iOS applications with React Native.
- Improved UI/UX through iterative testing and collaboration with designers.
- Optimized app performance and implemented animations, offline support, and API integration.

SeedStages   *Remote, California, USA*
FULL-STACK DEVELOPER (INTERNSHIP)   *Jan. 2021 - Jul. 2021*

- Started as a React Native developer, contributing to mobile app features and learning production-level practices.
- Promoted to Full-stack Developer, handling both frontend and backend tasks for web and mobile apps.
- Collaborated with a global team on cloud-based applications, using Node.js, Express, and MongoDB.

Projects

Vertis Digital   *Remote*
ADITYA BIRLA CAPITAL LIMITED (ABCL)   *2023 - 2024*

- Converted design mockups into dynamic UI components in React and TailwindCSS; improved page load performance by 12s.
- Implemented Sitecore Headless Delivery for unified ABCD platform, integrating 22 financial products.
- Optimized ABCL's "ABC of Money" blog, reducing load times by over 80%.
- Collaborated on analytics, gamification features, and multi-tenant architecture for better user engagement.

Vertis Digital   *Remote*
HEALTH CARE   *2023 - 2024*

- Developed responsive frontend using Angular and custom UI frameworks.
- Worked closely with designers to implement pixel-perfect designs.
- Enhanced accessibility and cross-device compatibility.

Skills

DevOps	AWS, Docker (Familiar with basic usage)
Back-end	Node, Express, MongoDB, REST API
Front-end	React, React-Native, Next.js, Angular, TypeScript, Tailwind CSS
Languages	Bangla, English, Hindi

Bootcamp & Training

Complete Web Development Bootcamp with Jhankar Mahbub *Programming Hero, Bangladesh*

Full-Stack Web Development (MERN) *2020 – 2021*

- Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), React.js
- Backend: Node.js, Express.js, MongoDB; Other Tools: Git & GitHub, Firebase Auth, REST APIs, Deployment (Netlify & Heroku)
- Built multiple full-stack projects including e-commerce and dashboards

Odoo Functional Trainings *Odoo eLearning*

ERP Functional Training & Customization *2025*

- Sales & CRM, Inventory & Purchase, Accounting & Invoicing, Studio & Customization
- Hands-on creation of custom apps, modifying fields, extending workflows, and stock/financial management
